The object of this institution is to reform boys and girls committed by the Police Justices, for truancy and such conduct as indicates they are beyond the control of parents. It is a public institution, supported by the city. It takes children viciously inclined, and insures them to habits which tend to lives of usefulness. The Home is in no sense like a prison, but the intent is to make it what its name implies, a "home" for wayward children.

PREFACE.

The third volume of the Harrison and Kearny Directory, published by the Holbrook Newark Directory Company, will be welcomed by its patrons. The canvass for names has been made with care, and while there has been an increase in the population of Kearny, in Harrison there is quite a considerable falling off. This, no doubt, is due to the closing down of mills and factories, and the people have been forced to seek employment elsewhere. If all the vacant houses were occupied there would be a much better showing.

The accompanying map has been corrected to date and is invaluable to business men and householders.
